REVISION IN
YEAR 11

INTRODUCTION

The next few months represent an important stage of your son/daughter's education. The GCSE examinations are imminent and it is essential that students are fully prepared for all of their GCSE subjects. Revision is a key aspect of your son/daughter's GCSE preparation and we offer a range of supportive strategies to help students to be ready for the demands of their GCSEs.

Following the mock examinations students should have a clear and focused understanding of where their performance, in all subjects, was successful and which key areas they should be concentrating on to ensure that their performance is improved.

REVISION AT HOME

Students should be working productively, at home, and engaged in independent study using the revision materials provided by staff and the One Note revision materials that are available to them all.

REVISION IN SCHOOL

In school revision takes place during three key parts of the school day. Some sessions take place during morning registration, some during lunch times and there are after school revision sessions scheduled. Sessions are delivered by subject specialists who might not necessarily be your son/daughter's class teacher.

We also have a team of Learning Mentors who work with students at lunchtimes and after school sessions daily to support them. Attendance at the Learning Hub can be voluntary and students are encouraged to 'drop in' if they want additional support.

It is essential that students make the most of all revision opportunities and I would encourage all students to make the most of revision opportunities in school.
